8. Columns to Scrape

For internship--

Column	Purpose
Internship ID	Unique identifier
Internship Title	Role analysis
Company Name	Company analysis
Industry	Industry analysis
Company Type	Startup, SME, MNC, etc.
Internship Type	Summer, Part-time, Full-time, Virtual, etc.
City	City analysis
State	State analysis
Work Mode	Remote / Hybrid / On-site
Department	Talent Acquisition, L&D, HR Operations, etc.
Internship Duration	1 Month, 3 Months, 6 Months
Stipend Min	Minimum stipend
Stipend Max	Maximum stipend
Education	Eligibility
Technical Skills	HR technical skills
Soft Skills	Soft skills
HR Tools	ATS, HRMS, LinkedIn Recruiter, etc.
Source Platform	Internshala, LinkedIn, etc.
Internship Link	Reference URL

Job—

Column	Purpose
Job ID	Unique identifier
Job Title	Role analysis
Company Name	Company analysis
Industry	Industry analysis
Company Type	Startup, SME, Enterprise, MNC
Employment Type	Full-time, Part-time, Contract
City	City analysis
State	State analysis
Work Mode	Remote / Hybrid / On-site

Column	Purpose
Department	Talent Acquisition, HR Operations, etc.
Experience	Experience analysis
Education	Qualification analysis
Salary Min	Minimum salary
Salary Max	Maximum salary
Technical Skills	HR technical skills
Soft Skills	Soft skills
HR Tools	ATS, HRMS, Payroll software, etc.
Source Platform	LinkedIn, Naukri, etc.
Job Link	Reference URL

9. Data Cleaning

Missing value keep blank

ID (Internship ID / Job ID)

• Generate a unique ID for every record.

• Remove duplicate postings.

• Maintain separate ID sequences for Internship and Job datasets.

Title

• Standardize job/internship titles by mapping them to the predefined role list.

• If an exact match is unavailable, use AI/manual review to map the title to the nearest relevant standard role.

Company Name

• Remove extra spaces, unnecessary special characters, and inconsistent capitalization.

• Standardize different spellings of the same company name.

Industry

• Map all values to a predefined Industry List.

• If the industry name varies, use AI/manual review to map it to the nearest standard industry.

Industry List

- Information Technology (IT)
- Software Development
- Information Technology Services
- Artificial Intelligence & Machine Learning
- Data Analytics & Business Intelligence
- EdTech
- HR Tech
- Recruitment & Staffing
- Consulting
- Management Consulting
- Banking
- Financial Services
- FinTech
- Insurance
- Accounting & Auditing
- E-commerce
- Retail
- Manufacturing
- Automobile
- Healthcare
- Pharmaceuticals
- Biotechnology
- Education
- Telecommunications
- Media & Entertainment
- Marketing & Advertising
- Digital Marketing

• Logistics & Supply Chain

• Real Estate

• Construction

• Hospitality

• Travel & Tourism

• FMCG

• Consumer Goods

• Energy & Utilities

• Government

• Non-Profit / NGO

• Legal Services

• Agriculture

• Others

Company Type

• Standardize values into predefined categories (Startup, SME, Enterprise, MNC, etc.).

Employment Type / Internship Type

• Standardize into predefined categories (Full-time, Part-time, Contract, Internship, Virtual, Summer, etc.).

City

• Correct spelling mistakes and standardize city names.

State

• Standardize state names

• If only the City is available, use AI to identify and populate the corresponding State.

• If both City and State are unavailable, keep the value blank.

Work Mode

• Standardize values to Remote, Hybrid, or On-site only.

Department

• Map all values to the predefined ACC HR Department List.

• If an exact match is unavailable, use AI/manual review to map it to the nearest relevant department.

Experience

• Convert all values into a standard numeric year format (0-1,1-3,3-5,5+)

• Keep blank if unavailable.

Education

• Standardize qualifications (Graduate, MBA, BBA, Any Degree, etc.).

Internship Duration

• Convert all durations into numeric months (e.g., 1 Month, 3 Months, 6 Months).

• Keep blank where not applicable.

Salary Min,max / Stipend Min/max

• Store numeric values only.

• Remove ₹, commas, currency symbols, "LPA", "Lakhs", "CTC", "/year", etc.

• Keep blank if unavailable.

Technical Skills(separate sheet)

• Split into rows

Eg. A1 Excel

A1 Analytics

A2 Google sheets

• Merge similar skills into one standard skill using AI/manual review.

Soft Skills(Separate sheet)

• Split into rows same as tech

• Merge similar skills into one standard skill using AI/manual review.

HR Tools(Separate sheet)

• Split into rows as tech

• Merge similar tools using AI/manual review.

Source Platform

• Standardize platform names (LinkedIn, Naukri, Internshala, Indeed, Foundit, Shine, Freshersworld, TimesJobs, Wellfound).

Job / Internship Link

• Remove tracking parameters where possible.

• Validate URL format.

• Remove duplicate links.

General Data Cleaning Rules

• Remove duplicate records.

• Trim leading and trailing spaces.

• Remove HTML tags and unwanted special characters.

• Maintain consistent capitalization.

• Keep all missing values blank.

• Do not replace missing values with "N/A", "Not Mentioned", "Unknown", "-", or any other placeholder.

• Use AI/manual review only where an exact mapping is unavailable (Role, Department, Industry, Technical Skills, Soft Skills, HR Tools, Company Type, and State).

10. Google Sheets Structure

Sheet1: Master Dataset

Sheet2: Technical Skills

Sheet3: Soft Skills

Sheet4: HR Tools

11. Dashboard Plan

Dashboard A (Internships, max 3 pages):

Page1-Market Overview

Page2-Skills, HR Tools & Responsibilities

Page3-Key Insights & Recommendations

Dashboard B (Jobs, max 3 pages):

Page1-Market Overview

Page2-Salary, Experience, Education, Skills

Page3-Market Trends & Recommendations

12. Reports

Report 1: Dashboard Analysis Report

Report 2: Solution & Strategic Planning Report

Report 3: Competitor Analysis Report.

Competitor Analysis should have two files: (A) Anonymous report using Platform A/B/C naming. (B) Reference file mapping Platform A/B/C to actual companies with official links and sources of references(Use **Grok AI** for initial competitor research. Verify facts using official websites. Add original analysis. Humanize the content with ChatGPT. Use Claude only for formatting, grammar and polishing)

Note:

• Add the ACC and C2C logos in the header of every page with consistent size and alignment.

• Add the project tagline and page number in the footer on every page.

13. Presentation

Create a stakeholder-level presentation. Prefer manual creation; otherwise Upload all project reports, dashboard PDFs, and supporting files to Claude, and ask it to use its presentation design and analytical skills to create a professional stakeholder-level presentation that covers all key insights, findings, trends, competitor benchmarking, strategic recommendations, implementation roadmap, and business impact from the entire project. Ensure that no important insight from any report or dashboard is missed, and present the information in a clear, executive-friendly, and visually engaging manner.

Note:

• Place the ACC logo at the center of the cover page.

• On all subsequent pages, position the ACC logo at the top-right corner while maintaining consistent size, alignment, and professional formatting throughout the document.

14.Final Submission

• Upload all final project files to a Google Drive folder.

The submission should include:

• Internship Dataset

• Job Dataset

• HR Internship Dashboard

• HR Job Dashboard

If dashboard is in looker then pdf + link

After final presentation transfer ownership to Wasim sir

• Dashboard Analysis Report

• Strategic Planning & Solution Report

• Competitor Analysis Report (Anonymous Version)

• Competitor Reference Document

• Final Presentation
